

Waste Isolation Pilot Plant
Class 3 Permit Modification Request
June 2005

Attachment C		
Section	Change	Explanation of Change
Attachment C Table of Contents		The Table of Contents was added to assist the reviewer. No changes were made.
Introduction (Footnote 1)	The active portion of the facility is the Property Protection Area (PPA) as described in Permit Module III. Within this area, the only area where transuranic (TRU) mixed wastes are handled outside of the Contact- or Remote-Handled Packaging <u>is</u> inside the Waste Handling Building (WHB), <u>the TRUPACT Maintenance Facility (TMF)</u> , the waste hoist, and the underground. ... The CA is initially set at the entrances to the Parking Area Container Storage Unit (Parking Area Unit), Waste Handling Building Container Storage Unit (WHB Unit), <u>the TMF Bay</u> , and portions of the underground. ...	These changes specify that RH TRU mixed waste can be handled within the PPA and that waste handling in the TMF is authorized.
C-1a(2)(b)	... For the purposes of entry control to areas where wastes are being handled, the Waste Handling Building Container Storage Unit (WHB Unit), the boundaries of the Parking Area Unit south of the WHB , <u>the Staging Areas</u> , and those portions of the underground where wastes are disposed are posted as Controlled Areas (CAs). ... Areas within ... Area. These smaller areas are generally within the direct vicinity of waste handling activities, <u>waste verification and examination activities</u> , or waste storage or disposal areas. ... The WHB Unit, the Parking Area Unit, <u>the Staging Areas</u> and the underground Hazardous Waste Disposal Units (HWDUs) will be posted with a sign that states: "Danger: Authorized Personnel Only" in both English and Spanish.	These changes add the staging areas as part of the Controlled Areas and allow verification and examination as activities within those areas.
